

**CE 329 Fall 2015**  
**Assignment 15 Self-Assessment Survey**

All but the final question are true/false

1. I had difficulty assigning the quantities given in the problem statement to the corresponding variables.
2. I had difficulty determining the type of reactor that was used.
3. I had difficulty identifying the correct design equation to use.
4. I had difficulty substituting the rate expression into the design equation.
5. I had difficulty identifying the independent and dependent variables in the design equation.
6. I had difficulty identifying other variables in the design equation.
7. I had difficulty expressing the other variables in terms of the independent and dependent variables.
8. I had difficulty separating the variables.
9. I had difficulty integrating the design equation after the separation of the variables.
10. I had difficulty linearizing the integrated design equation.
11. I had difficulty calculating  $x$  and  $y$  for each data point.
12. I had difficulty fitting the linearized equation to the  $x$ - $y$  data.
13. I had difficulty determining whether or not the fit was acceptable.
14. I made one or more minor math or programming errors.
15. I had no difficulty solving this problem.
16. I had other difficulties as follows:
