

**CE 329 Fall 2015**  
**Assignment 21 Self-Assessment Survey**

All but the final question are true/false

1. I had difficulty assigning the quantities given in the problem statement to the corresponding variables.
2. I had difficulty determining what type of reactor was used.
3. I had difficulty writing the mole balance design equations.
4. I had difficulty writing the energy balance design equation.
5. I had difficulty substituting the rate expression into the design equations.
6. I had difficulty determining whether or not I could choose a basis.
7. I had difficulty determining the type of equations I needed to solve.
8. I had difficulty determining the unknowns to be solved for.
9. I had difficulty determining what I needed to provide in order to solve the equations numerically.
10. I had difficulty determining how to evaluate the equations, given values for the unknowns.
11. I had difficulty solving the equations numerically.
12. I had difficulty using the results from solving the equations to answer the question.
13. I made one or more minor math or programming errors.
14. I had no difficulty solving this problem.
15. I had other difficulties as follows:
