

CE 329 Fall 2015
Assignment 5 Self-Assessment Survey

All but the final question are true/false

1. I had difficulty assigning the quantities given in the problem statement to the corresponding variables.
2. I had difficulty determining which equations I needed to use.
3. I had difficulty determining how to use the equations to answer the question
4. I had difficulty converting the model to a linear form.
5. I did not use absolute temperature in the Arrhenius expression
6. I had difficulty distinguishing the variables in the model from the parameters.
7. I had difficulty computing values for the variables for each of the data points.
8. I had difficulty fitting the linear model to the data.
9. I had difficulty using the fitted values of the model parameters to calculate the quantities the problem asked for.
10. I had difficulties finding the uncertainties for quantities.
11. I made some simple math mistakes.
12. I had no difficulty solving the problem.
13. I had other difficulties as follows:
