

**CE 329 Fall 2015**  
**Assignment 8 Self-Assessment Survey**

All but the final question are true/false

1. I had difficulty identifying the reactive intermediates and the stable species.
2. I had difficulty writing the expression for the rate of the overall reaction.
3. I did not eliminate one or more reactive intermediate concentration from the overall rate expression.
4. I tried to use the Bodenstein steady state approximation when it was not needed.
5. I had difficulty writing the equilibrium expressions for the steps other than the RDS.
6. I had difficulty solving the equations to get expressions for the concentrations of the reactive intermediates.
7. I made one or more minor math mistakes.
8. I did not have any difficulty solving this problem.
9. I had other difficulties as follows:
